Industrial Visit

Dr. J Suresh, along with 25 students of 2nd Pharm D students, visited the Pasteur Institute of India, Coonoor, on 21st February 2025. Dr.Shivanadappa and Dr.Mohan warmly welcomed us. The scientist, Ms. Kavia, from the Quality Assurance Department, briefed about the institute's history and workflow. Pasteur Institute of India, Coonoor, produces Vero Cell-derived Rabies Vaccine for Human use and DPT group vaccines consisting of DPT Vaccine, DT, and TT Vaccine supplied to the Universal Immunisation Programme (UIP). It functions as an autonomous body under the Ministry of Health and Family Welfare, Govt. of India.

The objectives of the institute are

- Prepare vaccines against emerging viral and bacterial diseases.
- To learn about vaccine production and quality control.
- To observe the research methodologies used in immunisation programmes.
- Develop cost-effective vaccines under advanced service and in GMP compliance.
- To offer academic & training programmes like Ph.D in Microbiology, Biotechnology & Biochemistry.

After a brief session about the institute, the students were allowed to have a visit around the industry & observed different industrial blocks for DPT, DT & TT vaccine productions.

We express our thanks to the principal of JSS College of Pharmacy, Mysuru, and the HOD Department of Pharmacognosy, who accompanied us, and the officials of the Pasture Institute of India, Coonoor.
