

Hospital Visit Report

The Department of Health System Management Studies, JSS Academy of Higher Education & Research (JSSAHER), organised a series of hospital visits from 13th July to 16th July 2026. The objective of these visits was to provide students with practical exposure to healthcare systems, hospital administration, and patient care services.

Day 1: 14th July 2026 – AJ Hospital and Research Centre, Mangalore

The visit to AJ Hospital and Research Centre, Mangalore, was conducted on 14th July 2026. Students were introduced to various healthcare departments, hospital operations, and patient management systems. The session included interactions with healthcare professionals and a detailed overview of clinical and administrative procedures.

Day 2: 15th July 2026 – Yenepoya Medical College, Mangalore.

On 15th July 2026, **Yenepoya Medical College**, Mangalore. The focus of this visit was on advanced healthcare facilities, including speciality departments, hospital information systems, and biomedical laboratories. Students observed the hospital's approach towards quality patient care, accreditation standards, and modern diagnostic services.

Conclusion:

As part of the MBA curriculum in Operations and Healthcare Management, a group of student managers conducted an observational visit to assess the practical integration of business strategies in healthcare delivery. The visit focused on understanding patient flow, inventory and supply chain management, hospital information systems (HIS), facility design, and service quality control.

The Department of Health System Management Studies, JSSAHER, extends its gratitude to all the hospitals and members who facilitated the visits and enriched the learning experience of the students. and also the authority of JSSAHER for facilitating the visit.
