June, 2021

2.30 pm to 4.30 pm

LEADERSHIP WEBINAR SERIES

Member Connect Initiative for JSS AHER Faculty / leadership

Theme: Great Leaders are made, not Born

The JSS AHER has always believed that to enhance the quality of education you must create leaders who believe in themselves and the philosophy of quality. Towards realizing this, we had organized leadership conclaves that were resounding success.

While waiting for the next in person leadership conclave to happen JSS AHER felt that it is important to connect with its faculty members and educators and share some thoughts with them in meeting the challenges that loom ahead of the beginning of the academic year. This Membership connect webinar with the theme “**Great Leaders are made, not born**”, aims at imbibing the qualities of leadership among the educators and emphasize how certain skills of Strategizing, Planning, Communicating, Multitasking, Team Building Capacities, etc., can help them face sudden challenges.

This webinar aims at understanding:

- How in the year 2021 work life and education will be different? Changed!
- How Technology needs to be strengthened and will become the backbone of delivery of education?
- How the Hybrid way of working become the new norm?
- How can leaders inspire and lead from the front?
- How self-actualization is quality to be nurtured for leaders?
- How to build a culture of accountability?
- How multitasking becomes an essential attribute of a leader?
- Team building capacities for providing good leadership.
