

## Guest Lecture Report

**Title: Ensuring Excellence: Quality Assurance Practices in API Production**

**Date:** 18/05/2024

**Resource Person:** Mr. B.R. Vedavyasachar

**Venue:** IIPC Seminar Hall, JSS College of Pharmacy, Mysuru

JSS College of Pharmacy, Mysuru, had the privilege of hosting Mr. B.R. Vedavyasachar for a guest lecture on "Ensuring Excellence: Quality Assurance Practices in API Production On May 18, 2024." Mr. Vedavyasachar, a distinguished professional with 34 years of experience in the pharmaceutical industry, shared his insights and expertise with the M Pharm Quality Assurance students.

Mr. Vedavyasachar's impressive career includes significant tenures at renowned pharmaceutical companies such as Cipla and Biocon, where he served as the API head. Currently, he holds the position of Quality Advisor at M/S Symbio Generics Ltd. His vast experience and deep understanding of the industry provided a valuable learning experience for the students.

The lecture began with an introduction to Active Pharmaceutical Ingredients (APIs) and their critical role in the production of high-quality pharmaceuticals. Mr. Vedavyasachar emphasized the importance of maintaining rigorous quality assurance (QA) practices throughout the API production process to ensure the safety, efficacy, and reliability of the final products.

The interactive session allowed students to engage with Mr. Vedavyasachar, asking questions and discussing real-world challenges faced in the industry. His insights into the practical

aspects of quality assurance provided a deeper understanding of the complexities involved in API production.

In conclusion, Mr. B.R. Vedavyasachar's lecture was an enlightening experience for the M Pharm Quality Assurance students. It highlighted the critical role of quality assurance in the pharmaceutical industry and provided them with valuable knowledge and practical insights. The session concluded with a vote of thanks, appreciating Mr. Vedavyasachar for sharing his expertise and inspiring the future professionals of the pharmaceutical industry.

This guest lecture has undoubtedly enriched the students' knowledge and understanding of quality assurance practices in API production, aligning with the college's mission to provide high-quality education and industry-relevant training.
