

## **Report on Visit to Mysore Wifiltronics and Glowtronics Mysuru**

19/06/2024

On June 19th, 2024, a team from JSS, including Dr. Balamuralidhara V., Dr. M P Venkatesh, Dr. K Bangarurajan, and Dr. Meghana G S, had the opportunity to visit two leading companies in Mysore: Mysore WiFiltronics Pvt. Ltd. and Glowtronics Pvt. Ltd. The visits provided invaluable insights into the operations of these pioneering firms in their respective sectors.

### **Visit to Mysore WiFiltronics Pvt. Ltd.**

At Mysore WiFiltronics, the delegation was welcomed by Ms. Anjali B. Gupta, the Managing Director, who is continuing the legacy of the company founded by her parents, Dr. Alok Gupta and Mr. J.C. Gupta, in 1992. WiFiltronics is renowned for its innovative medical devices, particularly in the development and manufacture of TURP loops, including the groundbreaking “Kriloktrode” and the “Button” Electrode. These products have significantly contributed to making surgical solutions accessible and affordable, especially in rural areas.

Mr. Praveen guided the team through WiFiltronics' advanced ISO 13485 and MDSAP certified facilities, showcasing their sophisticated manufacturing processes and stringent quality controls. The company's robust HR policies and commitment to employee welfare were also highlighted, emphasizing their dedication to a supportive work environment that fosters professional growth.

WiFiltronics' extensive product portfolio and global reach, exporting 98% of their products to markets in the USA, Brazil, Australia, Germany, Italy, and the UK, were impressive. Their focus on “Make in India” and adherence to international quality standards have made their products, often referred to as "Mysore Loops," highly trusted by healthcare providers worldwide.

### **Visit to Glowtronics Pvt. Ltd.**

Later in the day, the team visited Glowtronics Pvt. Ltd., a leader in high-precision component manufacturing for aerospace, defense, and semiconductor industries. Glowtronics' dedication to quality and innovation was evident during a comprehensive session with the leadership team: Mr. Vasudev, Mr. Jagan, and Mr. Hemanth.

Mr. Vasudev shared Glowtronics' vision and their journey of continuous improvement and customer satisfaction. Mr. Jagan discussed strategic growth initiatives, while Mr. Hemanth provided a detailed tour of their three key manufacturing units. These units showcased the company's cutting-edge technologies and their commitment to maintaining high standards in production and operational efficiency.

The visit to Glowtronics underscored the company's prowess in high-tech manufacturing and their role in positioning Mysore as a hub for advanced industrial production.

The visits to Mysore WiFiltronics and Glowtronics provided a comprehensive view of two distinct yet complementary industries. WiFiltronics excels in medical device innovation, contributing significantly to the healthcare sector, while Glowtronics leads in precision engineering for high-tech applications. Both companies exemplify excellence in their fields.

and highlight Mysore's growing stature in global manufacturing and technology. The insights gained from these visits were invaluable and opened avenues for potential collaboration and knowledge exchange.
