ABOUT SDG 10

**Reduce
inequality
within and
among countries**

**As long as poverty, injustice
and gross inequality persist
in our world, none of us can
truly rest.**

-Nelson Mandela

Sustainable Development Goal 10 aims at reducing inequality within and among countries. This SDG calls for reducing inequalities in income as well as those based on age, sex, disability, race, ethnicity, origin, religion or economic or other status within a country. The goal also addresses inequalities among countries, including those related to representation, migration and development assistance.

Space technologies can contribute in various ways, for example through:

- Connectivity in remote and isolated areas
- Remote participation in democratic processes
- Reliable access to information
- Connectivity in remote and isolated areas
- Remote participation in democratic processes
- Reliable access to information

It consists of Achieve and sustain income growth of the bottom 40 percent of the population at a rate higher than the national average.

EFFORTS MADE TO ACHIEVE THE GOAL

JSS Academy of Higher Education & Research is a renowned Institute for its educational and employment policies and has certainly earned its name for the level of transparency it maintains in all its deeds.

The institute has been functioning in line with the below policies

- Managing the pay gap between lowest and highest paid staff
- Instituting an equity agenda and plan that commits to equal opportunity and reduced inequalities in all processes and activities, most notably in the working environment.
- Committing to the elimination of discrimination across the university by ensuring the diversity of the population has the opportunity to be represented and have a voice in the decision-making process
- Providing a supportive, inclusive and safe working and learning environment for people from financially and socially disadvantaged, backgrounds, people from rural and regional areas, people with disabilities, women in the workplace, people of diverse genders and sexualities and people from diverse cultural and faith communities
- Scaling up and delivering sustainable solutions to global challenges developed by the university for the wider community and industry
- Providing safe and affordable on-campus and/or university-supported housing
- Committing to the development of and investment in the university's local community and areas of greatest influence (where possible)
- Committing to ensure the campus always remains safe, green, and provides accessibility for all levels of mobility
- Implementing best practice pollution control (including air) and waste management processes and policies.

Empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other statuses. Ensure equality of opportunity and reduce inequalities of outcome. Adopt policies, especially fiscal, wage and social protection policies, and progressively achieve greater equality. Improve the regulation and monitoring of global financial markets and institutions and strengthen the implementation of such regulations. Ensure enhanced representation and voice for developing countries in decision making in global international economic and financial institutions in order to deliver more effective, credible, accountable and legitimate institutions. Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well managed migration policies. Income inequality is on the rise—the richest 10 percent have up to 40 percent of global income whereas the poorest 10 percent earn only between 2 to 7 percent. If we take into account population growth inequality in developing countries, inequality has increased by 11 percent.

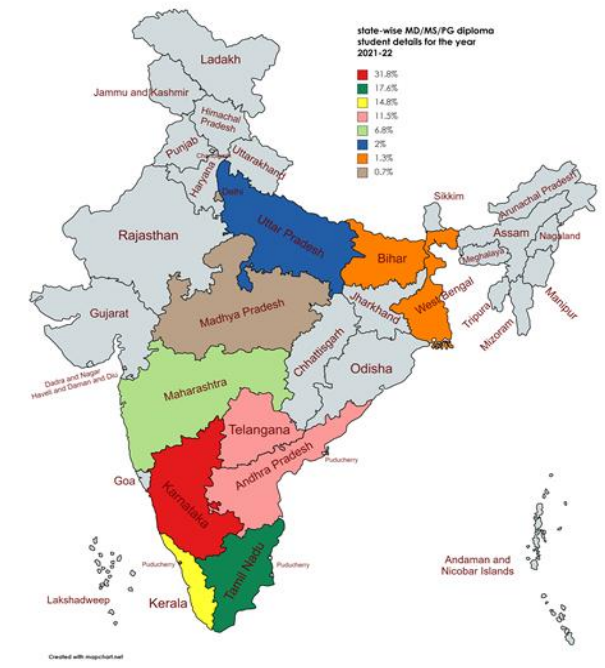

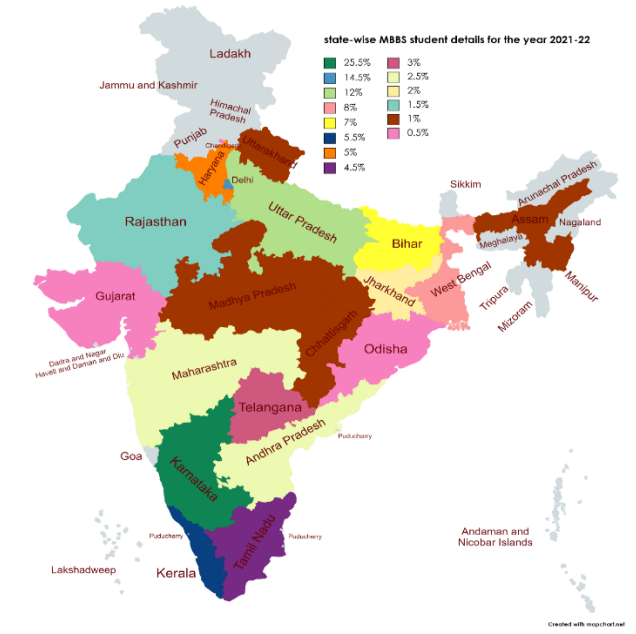

Income inequality has increased in nearly everywhere in recent decades, but at different speeds. It's lowest in Europe and highest in the Middle East. These widening disparities require sound policies to empower lower income earners, and promote economic inclusion of all regardless of sex, race or ethnicity. Income inequality requires global solutions. This involves improving the regulation and monitoring of financial markets and institutions, encouraging development assistance and foreign direct investment to regions where the need is greatest. Facilitating the safe migration and mobility of people is also key to bridging the widening divide.

Efforts made to achieve the goal

- Removing barriers for those living with disabilities.
- JSS College of Pharmacy provides free medication counseling and free medication to lower-income people.
- Reducing the gender inequality
- Provide equal opportunities for all students irrespective of gender, caste, creed, etc.
- Provide training and placement services for all students equally
- Equal opportunities to pursue their higher/ doctoral studies in pharmaceutical sciences
- Faculty encouraged to attend seminars/conferences and to deliver expert talks
- Facilities provided on the campus for Divyang jan/ differently able persons on Campus
- Achievements of the faculty and students at the national and international level is recognized.

OPEN AND DISTANCE LEARNING (ODL)

ODL has been able to make a global impact as an effective tool for educational empowerment of different learners deprived of the formal 'face-to-face' education due to various reasons. ODL has the potential to offer education to everyone and at every place by use of advance technology. This is a boon for the people living in terrains difficult to reach for the teachers to teach. With the aim to offer programs in health sciences, The JSS AHER ODL was launched in 2017 with a program on M.Sc. in Environmental Sciences and 2 PG Diploma programs and one certificate course. The aim of JSS AHER ODL is to offer programs in health sciences to cater to the needs of the individuals oriented towards environment and healthcare. JSS AHER ODL uses various modes of technology for effective delivery of the curriculum and efficient learning of the learners. It has established two study centers, one in Bengaluru and another at Ooty, to facilitate enhanced learning and provided additional support to the students. It has also having collaborations with other partners whose aim is also to empower the students by distance learning.

Programme report with details of resource persons /Guests to be enclosed along with photos in jpg format:

It was overwhelming for our department to celebrate Children's Day on 14th November, Sunday. This time like always our postgraduates and interns were involved on the eve of the day in decorating the wards and creating a warmth atmosphere in the wards amidst covid times.

Other pediatric staffs and I were involved in distributing the pencils and chocolates and sweets to the out-patient children and the in-patient children and their mothers. It is our privilege to celebrate as we are paediatricians. We have always believed that children should be given the utmost attention and love as they are the future of India.

SEMINARS/ CONFERENCES ATTENDED BY FEMALE FACULTY MEMBERS:

All faculty are encouraged to attend seminars/conferences as delegates a speaker to deliver expert talks on various National and International platforms.

The female faculty will reflect a belief that through such mechanisms as role model effects, increased safety, reduced prejudices, and greater identification and empathy, female teachers are arguably more effective in increasing girls' achievement at all levels. Diversity initiatives in higher education must address recruitment, retention, and promotion of women faculty. These initiatives are synergistic and must be coordinated across the institution at all levels to create a healthy campus climate

DETAILS OF COLLABORATION WITH OTHER UNIVERSITIES/ INDUSTRIES/ ORGANIZATIONS SUPPORTING SDG 10

1. Dept. of Anatomy has collaboration with Shanmukh solutions for Sickle Cell disease with the objective to test the point of care CRA has been done under MOU/MOA

2. School of Public Health

ii. Collaboration with GRAAM under Urban Youth Governance with the objective :

- a) To develop students of MPH with professionalism, leadership and to be socially responsible youth of the nation.
- b) To Build the Capacity of the MPH students on Urban Governance issues including Urban Health and Sanitation challenges.
- c) To Mentor students in the space of urban governance and to conduct group research, for in- depth understanding of the urban governance issues.
- d) To embrace the challenges of the 21 st Century by being part of the governance system and to find innovative solutions to new age challenges

The outcome of this is Fellowship program for 7 MPH students under MOU

iii. International Collaboration with UNIVERSITY of ARIZONA (UOA) for empowering Public Health Education with the objectives of :

1. To work jointly in developing and implementing research, including but not limited to research on health services, public policy, health equity especially with tribal communities, comprehensive primary health care, non-communicable diseases, and other key elements of health for all and universal health coverage.
2. To seek opportunities where the skills and expertise of the parties can be beneficially combined, including where either party is approached to participate in academic research by an external third party.
3. To work jointly to develop trainings and courses that would be jointly be certified in relevant competencies required for public health professionals and students at JSSAHER and ARIZONA UNIVERSITY.
4. To enable faculty through empanelment to participate in teaching as guest lecturers and as PhD guides or co guides for PhD students to utilize expertise across the two partners.

5. To enable students in the PhD by research program at ARIZONA UNIVERSITY to obtain the degree from JSSAHER in accordance with its existing rules and regulations including payment of required fees. JSSAHER recognizes ARIZONA UNIVERSITY as a centre for conducting the PhD program.
6. To enable internship training by providing internship opportunities at ARIZONA UNIVERSITY.
7. To offer certificate courses jointly signed by both parties and provide transfer of credits between two universities.

Outcome of this program will be Faculty exchange program under Full bright Scholarship under MOU

iv. Collaboration with Piramal Swasthya under Public Health, Tribal Health with the objectives :

1. Collaborative research, including but not limited to research on health services, public policy, health equity especially with tribal communities, comprehensive primary health care, non-communicable diseases, neglected tropical diseases and other key elements of health for all and universal health coverage.
2. To provide internship opportunities for postgraduate students from JSSAHER pursuing MPH, under various projects of Piramal Swasthya.
3. Possible employment opportunities for MPH Students on the completion of their course, provided there is vacancy and the candidate is suitable for the role. The candidates have to go through the regular interview process.
4. To work jointly to develop trainings and modules that would be jointly be certified in relevant competencies required for public health professionals and front line workers.
5. To enable the consultants and Public health professionals at Piramal Swasthya through empanelment to be involved as guest lecturers and deliver guest lectures for PGs and MPH students in JSSAHER

Outcome of this program will be Internship for 3 students in 2022 under MOU.

FEE POLICY

Purpose

- The JSS Academy of Higher Education & Research (JSSAHER), Mysuru operates sustainably as a not-for-profit organisation. It reviews and publishes its fee structure annually.
- The JSSAHER, Mysuru is committed to a fair and transparent policy in respect of fee structure.
- The policy has been developed to enable students to make properly informed decisions and aims to assist students in the payment of fees.
- This policy explains ways in which students can settle the fees and the refund policy.
- It outlines the consequences of non-payment of fees.
- This policy statement is designed to ensure compliance with all applicable regulatory requirements of bodies.
- The policy is reviewed annually, and students will be informed to the terms of this policy as part of the registration process at the start of each year of study. Details of any changes made to this policy will be made available through the website of JSSAHER (www.jssuni.edu.in).

Scope

- The Fee Policy applies to all the students (including applicants, where applicable) of JSSAHER, Mysuru.

Principles of Fee Structure

- JSSAHER, Mysuru will ensure that the Policy on Fee structure is operated fairly and consistently across the constituent colleges and departments of JSSAHER.
- In addition to tuition fees, students may be required to pay other charges. These are costs levied by or on behalf of JSSAHER, Mysuru and may include charges for labs, library, exam and breakages among others. Additional charges and the terms and conditions which apply to those charges will be published periodically and communicated to students.
- Students retain ultimate liability for the payment of their fees, whether invoiced or not, including where sponsorship agreements have been approved.
- Students will pay the entire fees at the time of their initial enrolment on the programme
- Under exceptional circumstances JSSAHER, Mysuru retains the right to provide for payment of fees in instalments.
- Students, who fail to pay fees due, will not be permitted/eligible for admission to any of the examinations.
- No student shall under any circumstances be allowed to appear for examinations without furnishing the “No Dues” certificate to the Principal of the College/Coordinator of the Department of JSSAHER duly signed by the respective authorities.
- No degree or qualification of the JSSAHER, Mysuru shall be issued to a student who has not discharged all his/her financial obligations to JSSAHER, Mysuru.
- The university reserves the right to alter fees or other charges without notice.

Roles and Responsibilities

Students are expected to:

- Pay promptly any charges determined by JSSAHER, Mysuru, including tuition fee charges.
- Any representation by the students regarding payment of fees should be submitted at the time of joining the course and such application should include reason justifying the same such as application for education loans with a clear mention of the date on which fee shall be paid.

The JSSAHER, Mysuru will:

- Provide accurate and timely information to students about the fees associated with programmes of study at the JSSAHER, Mysuru and ensure that students are informed of any changes since they applied for the programme and before the decision is made to join the programme.
- Provide financial advice and guidance to students regarding fees.
- Comply with relevant guidelines / orders as per the requirements of statutory/regulatory bodies in respect to fee policy.
- Charge fees in advance only for the year in which a student wants to engage in academic activities, except the international students where the conditions are determined by the sponsoring/funding agency with which JSSAHER has agreement.

The Constituent Colleges / Departments of JSSAHER will:

- Be responsible for students' fees collection and each constituent college/department of JSSAHER should maintain DCB (Demand, Collection and Balance) towards the student's fee collection and are required to submit the fee collection details to JSSAHER, Mysuru periodically.
- Notify the fee payment notification with due date on the notice board or electronically periodically (semester / year wise) duly marking a copy to the Finance Division of the JSSAHER, Mysuru.
- Follow-up the collection status of fee from each individual student (semester / year wise) and submit report to Finance officer within 90 days of starting of academic year compliance to the fee collection.
- Intimate the students about their fee dues in the respective semester/year. If the fee has not been paid by the students, the department should submit the list of defaulters to the University with clear recommendations for further action. Also, the department should not issue "No Objection Certificate" to the students who have not paid their dues. The Head of the institution / Co-ordinator of the Department of JSSAHER will be responsible towards the collection of fees and adherence to the fee policy.

Refund of Fees

It is as per the norms of the regulatory authorities/bodies, which is published periodically.

*Date of admission means the date before which the student is to report for admission to the institution / committee / authorities and does not imply the last date of completion of admission process. The directions given by the competent admission authority with regarding to reporting date will supersede the above clause where specifically mentioned and withdrawal will entail loss of full fees or as may be imposed by the institution.
