

Dr Raghavendra Kini  
Principal, AJ Institute of Dental sciences  
Mangaluru

JSS Dental College, is the institution from where I did my master's.

Though I had other institute to choose from, my preference was this institute. I'm happy with the decision I took then.

The college provided me with what was really essential to students. The campus was ideally located & filled with greenery.

The departments were quite spacious with good equipment's & infrastructure. What impressed me the most was the number of patients who visited our college, which was really good.

The Principal, teaching faculty, Library staff & offer staff were very friendly and supportive. I'm proud alumni of JSS.
