

## **Dr Srivats Bharadwaj-Batch-1991**

Prof., Paediatric & Preventive Dentistry  
Founder Chairman and CEO, Special Smiles Pvt. Ltd.,  
Vatsalya Dental Care, Bengaluru

It gives me immense pleasure to write this testimony about JSSDC which has hugely responsible for shaping my career and my professional thought process.

The progressive vision of our honourable swamiji who envisioned and created this wonderful institution and provided an opportunity not just for students but also for accomplished faculty to join hands and shape the future of dentistry in this country.

During my student days at JSSDC it was a lot of fun and learning. The faculty always were helpful in inspiring me to do better and think big. After my graduation I was a natural choice to continue my post graduation at JSS simply because I could not find something better and more friendly.

The amount of patients who visit our hospital is a testimony of the reach and care JSS has provided to the community and also has helped all of us harness our skills as good dentists. I thank swamiji, all the faculty members and all the staff members of JSSDC for creating this wonderful institution.
