

Testimony

It is a sense of pride and immense pleasure to talk about my Alma mater. I was very fortunate to have been graduated from a highly esteemed and prestigious institution- JSSDC. I have always been one among the toppers and it is mainly due to the inspiring teachers who taught me and made the most difficult things simple. The management of JSSDC has always chosen the best mentors so that we would be moulded as good doctors and good humans to serve the society.

My sincere best wishes and regards to all my mentors and my Alma mater
