

JSS , the epitome of Knowledge that build my future. I'm extremely fortunate and honored to have graduated in Dentistry from the JSS Dental College and Hospital.

Dedicated teachers along with a fully equipped preclinical lab were successful in grooming the initial years of Dentistry. Needless to say, the increased ratio of patients to students and the multi cultural diaspora of students opened up the introvert in me.

The icing on the cake was ,when I got the opportunity to do my post graduation at my Alma mater ,and, till date I cherish those wonderful years which bought out the best in me.The knowledge I amassed here was instrumental in attaining my Membership in the Royal college ,Ireland and the Australian Dental council.

Once again, I take this opportunity to thank my Mentor, teachers, friends, staff and management of JSS institutions for opening up a world of possibilities. I can proudly vouch any say, ' Namma college..u JSS..u'.

Thank you.
